# eeDepart – automate check-in solutions via new technologies

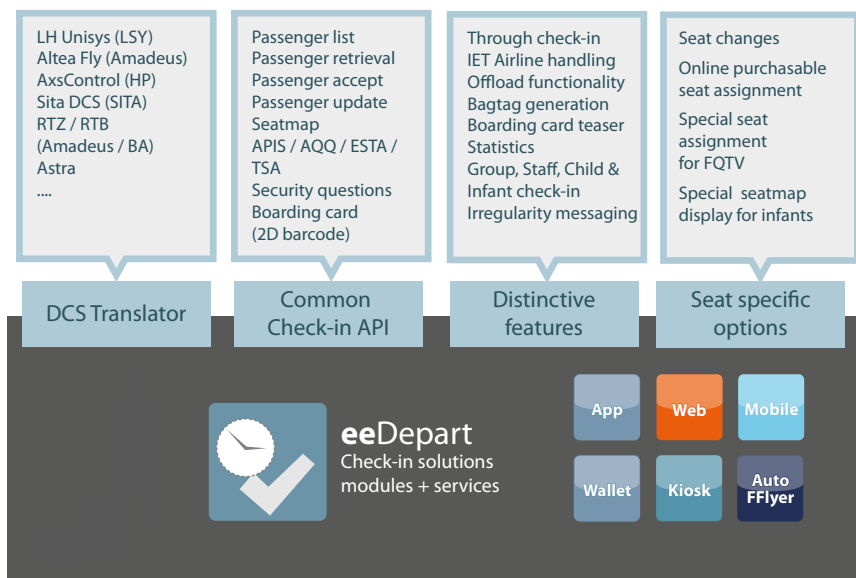

Long lines at security checkpoints, high volume check-in numbers during early or late rush hour and soaring handling costs at airports provide challenges for all air carriers. The rush to provide one of the new dynamic and automated solutions is critical for frequent and business travelers where time is of the essence. The search for new technologies is absolutely essential, in order for carriers to stay competitive, offer innovative solutions and drive down overall costs.

eeDepart brings on the next generation of online and automated check-in solutions to air carriers. From internet to mobile/App to kiosk check-in, the tool provides better a passenger experience and drives down overall handling costs.

eeDepart provides carriers with a complete module offering various check-in solutions that can be combined or used standalone. The module can be fully integrated into all the other eeSky Suite of products, such as eeBook and eeConnect in order to offer a comprehensive tool to cover booking, check-in, flight information notifications, SMS/MMS/APP check-in, automatic registration, early seat selection, personalized check-in invitations to so much more.

**M**obile, App or Wallet platforms can easily be combined with eeDepart to provide an all-around responsive solution for check-in. ee2go is the one-stop-shop for passengers: check-in for a flight, receive push notifications and get special offers all in one. The platform is fully extendable for crew and ground staff notifications as well.

**W**ith numerous years of experience in check-in products, 2e has the right solution for any air carrier. We base our entire development methodology around the phase review process for quality management. If the client permits, we work closely right from the concept stage until the product is finally online and monitoring and success measurement is in place. This assures the highest quality coupled with fast development times and low costs.

eeDepart, just one solution in the 2e Systems eeSky Suite that places carriers one step ahead of the competition. We help make your check-ins fly.
